

# DETECTAMET Detectable Products

Detectable products are formulated and manufactured in compliance with the applicable requirements of European (EU) and US (FDA) regulations for materials and articles in contact with food and other relevant standards. Specific 'Declaration of Compliance' statements for individual products are available on request.

Our key focus is the design, manufacture and supply of x-ray and metal detectable products, bringing both tried and tested concepts to the marketplace and continually developing new and innovative solutions.

## PRODUCT RANGES

Detectable Stationary, Detectable Storage, Mixing & Handling Equipment, Detectable Tags & Labels, Detectable Hearing Protection, Detectable Safety knives, Detectable Plastic Clipboards, Detectable Hygiene Workwear, Detectable Plasters & Dressings, Detectable Cable Ties, Detectable Tools, Detectable Engineering Products & Solutions

## *Shield Your Reputation*

### Food Safe Metal & X-Ray Detectable Products

Detectamet products are made from various materials, those that offer the best capabilities for food applications that cannot always use a metal alternative. All products in the Detectamet range are detectable either by metal detection and x-ray systems, or are visually detectable. This will not be systematic for all customers and indeed for all machines/lines or sites. There is no 100% guarantee of zero risk with any detectable products.
